“Talk on Gender Awareness”

Date of the event: 16th February 2023

Platform of the event: Seminar Hall

Women Development Cell conducted the talk on “Gender Awareness” with the speaker Ms. Prema Mishra. She is the MD Founder of UCatapult Foundation in Mumbai. UCatapult Foundation is a Start-preneur venture of a passionate educationist with over two and a half decades of Leadership experience.

The main motive behind this event was to spread awareness among students regarding the issues happening in recent world related to gender. The seminar began with an introduction to gender awareness and its importance. The facilitator discussed the different social, cultural, and economic factors that influence gender and how they impact the experiences and opportunities of men and women. The speaker also emphasized the need for gender-sensitive policies and practices in various sectors.

At the event, our speaker Ms. Prema Mishra discussed gender stereotypes, gender-based violence, gender development and many more issues and solutions to it. Around 100 students participated in this event and professors from FRCRCE also joined our event. The first 45 minutes of the event involved discussing the topics and the next 15 minutes was a question-and-answer session which the speaker handled very nicely.

Every individual present found it to be an eye-opening and informative session. The talk was concluded with a token of love from our chairperson, Dr. Sapna Prabhu.

Name of the event: **"Poster Making Competition on Gender Issues"**

Date of the event: **14th October 2022**

Venue of the event: **511**

Number of Participants **26**

Women Development Cell conducted the Poster Making Competition. Poster Making Competition is a platform for students to engage the community's interest in an issue, reveal community issues, and raise awareness of an issue in a way that is visual, inclusive and fun.

Gender is of key importance in defining the power, privilege, and possibilities that some people have and some people do not have in a given society. It affects progress towards equality and freedom from discrimination. To raise the awareness about gender equality among society we have come up with this competition.

It was an individual Competition. Everyone was allotted 1 hour to come with their posters which were to be hand drawn.

5 posters were shortlisted and the winner was decided based on creativity, the perspective of an individual toward the problem, and Relevance to the theme.

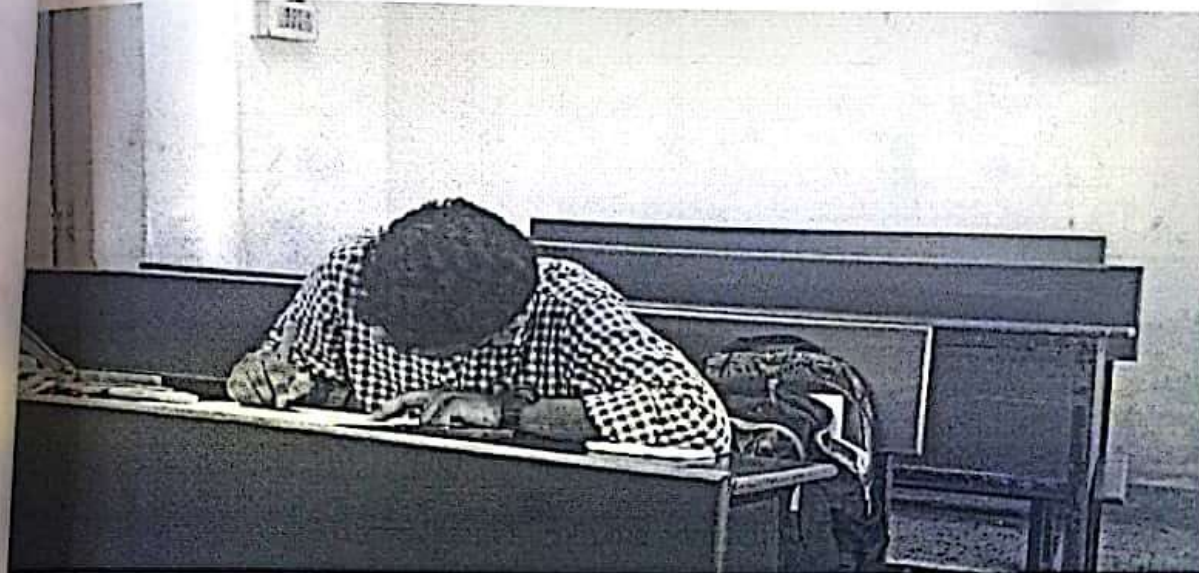

Professors from FRCRCE which are Dr. Hemant Khanolkar and Dr. Jagruti Save served as judges for the competition.

All Students came up with innovative ideas. The student with the maximum points was declared as the winner of the competition and a prize was given to him. Also, the top 5 posters were put on the walls of different floors as to increase more awareness.

“Talk on improving Women's health: Challenges and prevention”

Date of the event: 15th September 2022

Venue of the event: Room no 511

Number of Participants 100

Women Development Cell conducted the talk on "Improving Women's Health: Challenges and Prevention" with the speaker Dr. Dhrupti Dedhia. She's an Obstetrician-gynecologist in Mumbai. Dr. Dhrupti Dedhia is a practicing Obstetrician & Gynecologist who specializes in Laparoscopic surgeries, infertility and Sexual Medicine.

The main motive behind this event was to spread awareness among students focusing majorly on females that every female needs to see a gynecologist to sustain good health. As reproductive organs mature during puberty, a regular gynecological evaluation is a must. One can expect a detailed explanation about normal body functions or answers to any female health-related questions upon their visit to the gynecologist.

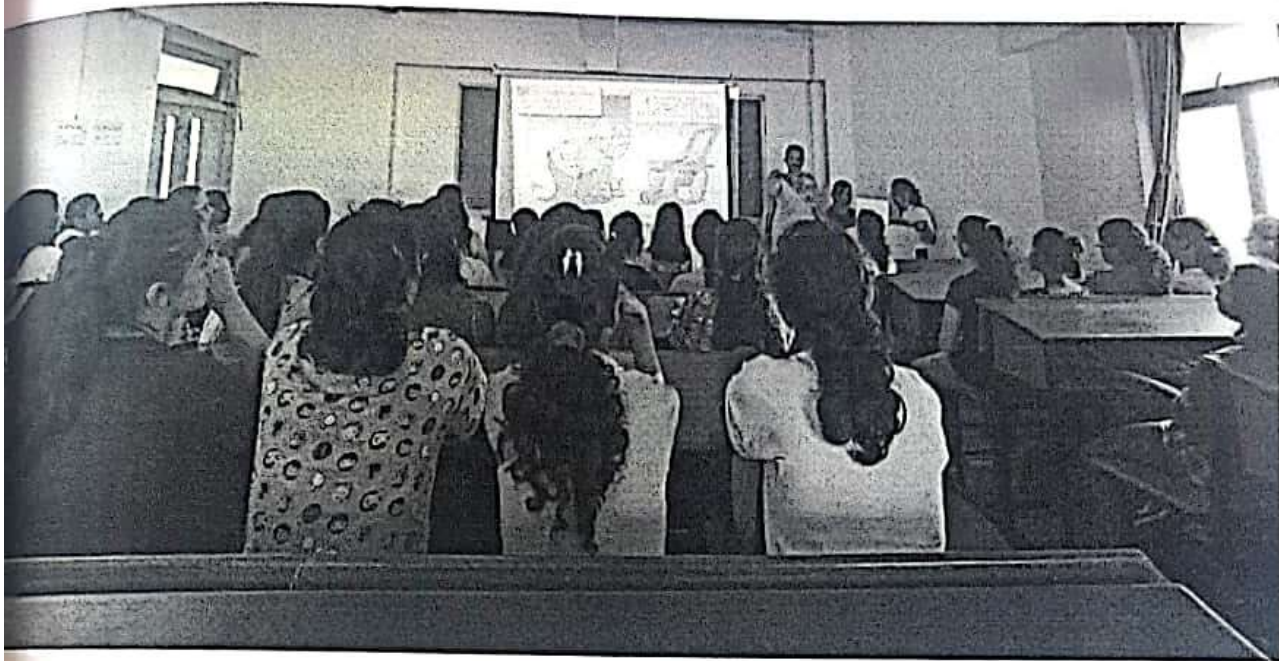

At the event, our speaker Dr. Dhrupti Dedhia discussed puberty, menarche, breast development, pregnancy to menopause, and significant diseases that affect women. Around 100 students participated in this event and professors from FRCRCE also joined our event.

Every individual present found it to be an eye-opening and informative session. The talk was concluded with a bouquet and a token of love from our chairperson, Dr. Sapna Prabhu.

Subject: Invitation for conducting a seminar on “Improving Women’s health: Challenges and prevention”

Dear Madam.

We are the Women Development cell of Fr. Conceicao Rodrigues College of Engineering, Bandra. The Mission of WDC-CRCE Cell is to create social awareness about the problems of women and in particular regarding gender discrimination. It aims to develop the self-confidence of female students, teaching and non-teaching women staff of the College. The WDC-CRCE was formed to prevent sexual harassment at workspace and to promote general well-being of female students, teaching and non-teaching women staff of the College by implementing women’s policies in general. This is in compliance with the decision of supreme court. We also organize seminars, workshops related to women development.

It’s an honor to invite you as a Guest Speaker to address our students in the seminar on “Improving Women’s health: Challenges and prevention”. Your thoughts would enable our students to gain knowledge from your experience and expertise.

The date for the seminar conducted will be on 15th September 2022 and the session will begin at 11.00 am. It has been a practice to arrange such seminars in the institute in effort to promote the well-being of girl students and staff.

Please feel free to contact us for any queries at sapna@fragnel.edu.in. We look forward to seeing you soon.

Yours sincerely

Subject: Letter of appreciation for conducting a session on “Improving Women’s health: Challenges and prevention”

Respected Madam,

On behalf of WDC-CRCE council at Fr. CRCE, we would like to express our heartfelt gratitude to you for conducting a session on “Improving Women’s health: Challenges and prevention” which was scheduled for 15th September 2022. The entire council sincerely appreciates your time and your efforts in making this session successful.

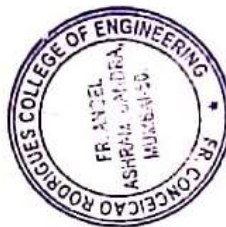

Your expertise and knowledge gave all the participants so much knowledge which were unknown to them. Your detailed and expert response to every question regarding female hygiene, menstruation, infection, disease, precautions and many questions asked by the participants created awareness among them and prepared them for future.

This session would not have been possible without your contribution. We really appreciate you taking the time to share your extremely valuable knowledge and providing all kinds of knowledge to our participants throughout the session.

It was a great experience having you at our event. Best wishes for your future endeavours.

Regards,

Students Chapter Details

Chapter Name: WIE-IEEE-CRCE

Description of Chapter:

WIE-CRCE is an affinity group of IEEE which is the world's leading professional association for the advancement of technology. WIE membership is available free of cost for IEEE members, especially women student. The mission of WIE is to inspire, engage, encourage, and empower IEEE women worldwide. WIE-CRCE aims to inculcate the importance and advancements related to technology and social issues to women to make them whole as an individual with a firm technical background. Helping students adapt to technological aspects of modern world and being in power with any other professional is our objective. This chapter organizes the talk of eminent personalities from various fields to celebrate Women's day. WIE envisions a vibrant community of IEEE women and men collectively using their diverse talents to innovate for the benefit of humanity.

List of Activities conducted in year 2022-23

| Sr. No | Activity/ event | Description | Speaker/Judge details | Date/ Duration | No. of students participated |
|--------|-----------------|--|---|--|------------------------------|
| 1. | CRCE Ingenium | The event aimed to foster innovation among students by challenging them to devise creative solutions for everyday problems. Participants were then presented with a problem statement: "Design/Make an Assistive Technology to Help Individuals with Different Types of Disabilities - From Cognitive Problems to Physical Impairment." Teams had 90 minutes to develop their solutions, which were later judged based on criteria such as innovativeness, originality, usefulness, and technical compatibility. Overall, the event provided a platform for students to showcase their problem-solving skills and innovative thinking. | 1. MR. SAURABH KORGAONKAR (Assistant Professor in dept of Mechanics) 2. MR. VAIBHAV GODBOLE (Assistant Professor in dept of ECS) 3. MS. KALPANA DEORUKHAR (Assistant Professor in dept of computers Ph.D. Computer (Pursuing)) | 15th September 2022 01:30 PM - 05:00 PM | 52 |

| | | | | | |
|----|--------------------------|--|---|--|-----|
| 2. | Women Leaders In StartUp | The primary objective of the seminar was to educate students about the process of establishing a startup from the ground up and inspire them to believe in their ideas and actively work towards building a company. Mrs. Jyoti, the founder of TeaFit, shared her entrepreneurial journey, emphasizing her appearance on Shark Tank and the motivation behind starting TeaFit. The informative session aimed to equip students with valuable insights into the startup ecosystem and encourage their entrepreneurial aspirations. | MRS. JYOTI BHARADWA J (Founder TeaFit) | 22nd September 2022 2.30PM - 3.30PM | 130 |
| 3. | Transylvania | The event was a fundraising initiative called Synergy. The main attraction of the event was the game, "CRCE Transylvania," where teams of three members each were blindfolded and placed in a locked room. Their challenge was to escape within a tight 12-minute timeframe. The team with the shortest escape time was declared the winner. The event not only provided an exciting and challenging experience for participants but also contributed to fundraising efforts for WIE CRCE. | - | 21st October 2022 9:00AM - 5:00PM | 96 |
| 4. | Understanding the | The speaker discussed the three key stages of a startup: ideation, growth, and expansion. The offline event | PROF. PRAJAKTA BHANGALE | 27th January 2023 | 30 |

| | Phases of Startup | at the college received an appreciable response from students. The speaker emphasized the diverse activities undertaken by startups in each stage, highlighting the importance of minimizing the time taken to progress from one stage to another. Furthermore, she provided insights on nurturing ideas and transforming them into successful startups. The event aimed to provide valuable knowledge and guidance on the entrepreneurial journey. | (Assistant Professor in Department of ECS) | 10:00AM - 11:00AM | |
| 5. | Industrial Visit to Sify Technologies | An industrial visit to Sify Technologies took place where the goal was to provide students with real-world exposure to the operations of Sify Technologies, an Indian ICT company. Activities included security briefings, a presentation on the company's profile and projects, a tour of the data center, and explanations of safety protocols and power generation. Students gave positive feedback, noting the valuable insights gained, especially in the realm of cloud computing. The visit was praised for bridging the gap between theory and practice, offering participants a practical understanding of organizational operations. | - | 17th February 2023 | 4 students 4 teachers |

|----|------------------------|--|---|-------------------------------------|------------------------------|
| 6. | Womens Day Celebration | On the occasion of Women's Day, an insightful Mental Health Awareness session was organized for both students and teachers. The session aimed to address the significance of mental well-being and promote an open dialogue about mental health challenges that women may face. The event provided a platform for participants to engage in discussions, share experiences, and gain valuable insights on managing mental health effectively. To further support women's health and hygiene, at the conclusion of the session, students were thoughtfully provided with essential items, including sanitary napkins. This initiative not only raised awareness about mental health but also demonstrated a commitment to the overall health and dignity of women in the community. | MS. FALAK (Senior Consultant Psychologist Amaha Foundation) | 8th March 2023 10:00AM - 1:00PM | 20 teaches 60 students |
| 7. | Prakalp-2k23 | The project competition provided students a platform to showcase their engineering projects in hardware and software categories. The event consisted of two rounds, with the first round conducted online, shortlisting 60 teams for the second round based on their project abstracts. 4. Woman Empowerment Initiatives through NGO tie-ups

Fr CRCE has established linkages with various bodies like Katalyst, Nimaya etc. These NGO'S play a very vital role towards women empowerment by providing basic education, vocational training, training for self-employment, legal aid, protection for women and self-awareness programs. Thus they are mainly concerned with the upliftment of the women in the society.

Katalyst India - NGO for Women's Empowerment:

Katalyst started a decade ago with the intent of liberating women from low income communities, through the pursuit of professional education. The initiative definitively prepares young women for leadership roles, thereby creating a wider talent pool for India Inc. and helping bridge the gender divide. Katalyst achieves this objective through a blend of unique development interventions, including 600 hour proprietary and scientifically researched curriculum. Over the four years in the program, they provide one-to-one mentorship, access to best in class technology, assistance with internships, and world class industry exposure and corporate interactions.

The primary objectives of the program are:

To enhance employability of the girl students thereby marking their foot prints in the managerial cadre of corporate India.

To encourage and empower talented girls to take on roles of leadership and innovation thus participate in the process of community building.

Selection criteria

Girl students pursuing professional degrees like Engineering, Architecture, Medicine and Chartered Accountancy preferably from colleges of repute with a good academic track record and family income up to Rs. 8 lakhs per year.

The Program supports the girls during their entire undergraduate studies. This includes:

Mentoring: The mentor program offers the students an opportunity to interact with mature, educated individuals from various professional fields who can guide them and expose them to a new set of experiences and perspectives. The mentor program aims at helping Katalysts define themselves, learn essential life skills and evaluate various career options. It is founded on four pillars of support as outlined below

- Socio-emotional Support
- Personality Development
- Academic Support
- Career guidance and support

Life Skill Training: One critical element of the Kalatyst program is to give training in Life Skills and to provide a long term mentor for each student, so that she can develop into a mature, self-confident, all-rounded professional. This will equip Katalyst students to cope with daily living challenges and to attempt to compensate through these sessions, their lack of exposure to situations and experiences required for a successful integration into the corporate world.

Internship: Katalyst provides its students with assistance in getting internships. Internship gives them exposure to the practical side of what they have learnt so far in the course, and helps validate their decision to do such kind of work in the future. It enhances their hard skills and soft skills. It helps them build network of people to eventually succeed in life. This intervention bridges the gap between academic curriculum and industry. The internship may also lead to a placement offer and culminate into a permanent job.

Filed Visits: Field visits expose Katalyst girls to different industries. It includes floor walks in a factory or a company and provides a better understanding of different processes, functions and departments. The students learn about the foundation of the organization, its structure, and culture. Such exposure visits benefit students by giving a real perspective about their field.

Guest Lectures: Exposure to new experiences and people helps Katalyst girls to learn, get inspired, aspire and act. Katalyst make girls interact with celebrated personalities from various fields. Hearing visionaries from different walks of life acquaints them to a life of a successful person, his/her profession, and various challenges overcome by them. Such talks give girls an inspiration to lead the change in their spheres of influence.

Technical Support: Katalyst gives new laptops to each Katalyst girl at subsidized rates (subsidy up to Rs.25000). It gives girls access to technology, internet and computer programs. In addition, most of the Katalyst girls are pursuing engineering and owning a laptop is a necessity for college assignments and projects.

Medical Insurance: Katalyst provides medical insurance to the student and her mother or female guardian. The daughter is expected to chip in and substitute if mother takes ill affecting studies. This gives access to prompt quality medical treatment and avoids absenteeism or lost study time due to student's or mother's health.

Financial Support: Katalyst gives financial support to its students as incentive (up to Rs.40000 per semester). A scorecard is maintained where each student is given a grade for each of the following parameters:

1. Number of hours of training and field visits attended.
2. Number of mentor interactions per month.
3. General attitude which is based on a rubrics.
4. Academic performance in college.

Financial value is assigned for each grade. Thus the amount is calculated and paid every six months.

In 2022-23 3 students got selected for the program.

Nimaya Foundation: "Nimaya" (opportunity in Sanskrit) is a **not for profit** initiative X Billion Skills Lab (XBSL). The aim is to enable girls from under-served backgrounds to build aspirational careers in technology. It is an initiative in partnership with Project Naveli's Navya Nanda, and is supported by the United Nations. The objective of the program is to change & challenge the reality that girls from limiting means, at large, end up capping the scope

of their career to rote jobs such as admin, secretarial, call centre etc. While no occupation is less dignified, if someone has the potential and ambition to work in aspirational roles as coders or product managers in the booming technology landscape, they should have access to high-quality exposure in 21st century skills such as critical thinking, storytelling, creative problem solving, entrepreneurship and remote collaboration.

These are just as important as technical skills for professional success in the new world of work. In fact the World Economic Forum ranks these **amongst top 10 job skills for jobs** of the future and **India's new national education policy** lays special emphasis on them.

XBSL's goal is to partner with colleges teaching coding / computer science degrees and identify cohorts of qualifying girls to put them through the XBSL 21st century workplace skills development program along with sessions on personality development, grooming and confidence building.

This experience will give a unique edge in placements, where XBSL will also provide support. In fact, senior women leaders from Tech Mahindra will mentor students as part of this cohort. XBSL URL:- <https://xbillionskillslab.com/>

Project Naveli

Project Naveli hopes to bridge the gender gap in India. The project will provide women with access to resources and opportunities that will allow for economic and social empowerment.

Mon, 17 Oct, 15:36

Respected Sir/Madam,

This is the schedule which has come from Nimaya Foundation under which 30 girls students from our college are being trained.

The course is a 30 day program under which selected students would undergo online training. Considering their exam schedule, all activities are planned in late evening session. The period of training is 12th October to 30th November 2022.

We had already conveyed the other party details of the university exam schedule well in advance.

Do let me know, in case of any query

Thanks & Regards

Prachi Patil

Nimaya – XBSL Training Program

Co-founded by Navya Naveli Nanda, Founder, Aara Health & Project Naveli and Samyak Chakrabarty, Founder, Workverse, 'Nimaya' is a 21st century workplace skills accelerator to enable girls from under-resourced communities to build aspirational careers. "Nimaya" aims to change the notion that only youth from elite tier institutions or hailing from privileged families can get high quality exposure and access to meaningful opportunities. Where you live, where you study and one's family background should not be a limiting factor for dreams.

In addition to technical skills such as coding, finance & banking and marketing, they also provide training in generalist skills such as **problem solving, critical thinking, entrepreneurial mindset, emotional intelligence, productivity management, collaboration and storytelling**. Each learner experiences 50+ hours of training which includes foundation modules, master classes with 50+ CEOs, personalized mentoring and 200+ situation based judgment assessment tests. Post the training, they also provide placement support. In fact 30+ girls were placed in aspirational start-ups from their last cohort.

Interested Girl Students can apply using the following link.
