This is to certify that **Mr. Joshua Noronha** has completed his internship with Jet Airways from 18th December, 2017 to 6th February, 2018. During his tenure, he has worked on the following projects:

Robotics Application using Node.js : This application was developed by him to send email and SMS notifications by integrating with multiple third party APIs & gateways. The data was fetched from a real-time database and these notifications were sent to different recipients based on business requirements.

Flight Manager App : Joshua designed a database schema for a flight checklist and made a front end for the same using Serenity framework on the .NET platform.

We found Joshua to be a very sincere, hardworking person. We believe that with his foundational knowledge and great aptitude for learning, he would be an asset to any organization and I have no doubt that his abilities and determination will continue to grow. TO WHOMSOEVER IT MAY CONCERN

This is to certify that **Mr. Nainam Shah** has successfully completed his internship program under my guidance and supervision. **Mr. Shah** was a part of Mission Antyodaya program, a program that explored 70 pressing problems that the country is facing and how they can be solved by the inter-linkages of various policies initiated by the present Government over the last three years. While the objective of the internship is close to the Prime Minister's heart, the course of the internship was geared towards setting the new narrative of policy planning in the country.

The period of internship was of one and half months and the dates of the internship program were from **21st May-10th July, 2017**. The aim of the Internship program was to arrive at 70 sustainable solutions that can solve the imminent problems associated with one of the twenty social sectors. The challenge posed by the internship program was not only to arrive at a solution but also to create social innovation models in such a way that it doesn't lead to a substantial increase in public spending.

He worked on the topic of **Healthcare** and his work met the rigorous needs of the internship program. His work is to be converted into a publishable book format. I would like to congratulate **Mr. Nainam Shah** for having successfully completed the internship program with distinction and for having shown the right amount of discipline, intellectual rigor and team spirit during the internship period.

TO WHOMSOEVER IT MAY CONCERN

Antyodaya is an economic and spiritual philosophy of extending basic provisions and services, material and mental comforts to the last person on the line. Today the philosophy serves as the ethical and moral rudder of the present Government and it was with the elevated aspirations and intentions of further assimilating and synergizing the essence of this philosophy into the policy framework that I initiated the "**Mission Antyodaya Internship Program**", of which **Mr. Nainam Shah** was a part.

During the course of the internship I got acquainted with **Mr. Shah's** work and found his efforts to my liking. I believe that he is full of latent potential, which can flourish if and when a conducive environment is provided to him. His inputs to the research program proved to be instrumental in our pursuit to find a sustainable and innovative solution.

I hope **Mr. Shah's** work on the topic of **Healthcare** shall be instrumental in taking the grand vision of the Hon'ble Prime Minister i.e. "Maximum Governance and Minimum Government" forward. I also hope that **Mr. Nainam Shah** keep on reaching new heights by putting renewed efforts to face challenges both intellectual and personal.
